

NATURAL PHILOSOPHY ALLIANCE CONFERENCE

Under the leadership of Domina Spencer, the 10th annual conference of the NPA took place at the Department on June 9-13, with the theme *New Developments in Physics, Chemistry, and Cosmology*. Since about 55-60 papers were presented, it would be impractical to list them here. For detailed information, readers may write to spencer@math.uconn.edu.

The speakers came from various countries in Europe, from India, from South America, and from many parts of the U.S. In addition to Domina, contributors with UConn connections were Mahmoud Melehy (UConn School of Engineering, emeritus), Uma Shama (PhD 1987; Bridgewater State College), and Philip J. Mann (PhD in EE, 1998).
